KEY SEASONAL BEERS

Anchor Summer (4.6% abv.)
First brewed in 1984, a crisp, light and refreshing beer - the first American wheat beer in modern times.

Anchor Christmas (abv. varies)
The Christmas beer recipe is different every year (as is the tree on the label) and, properly refrigerated, the beer will mellow slightly and remain drinkable for years.

Anchor Bock (5.5% abv.)
Released in celebration of the coming of spring, 'bock' is an incredibly old brewing tradition, usually meaning a beer darker and stronger than the brewery's regular brews.

Anchor Humming (4.5% abv.)
Using a rare hop variety (Nelson Sauvin) Anchor create a unique pale ale with character and a wonderful flavour.

Brooklyn Summer Beer (4.5% abv.)
A modern rendition on English 'light dinner ales', Brooklyn Summer is a golden beer with a crisp bitterness and a citrus / floral aroma – a beer with a very sunny disposition!

Brooklyn Pumpkin Ale (5% abv.)
Early American colonists used pumpkins (which were plentiful, flavoursome and nutritious) blended with barley malt in their beers. Post Road has an amber colour, warm pumpkin aroma and a biscuity-malt centre.

Brooklyn Winter Ale (6% abv.)
Rich Scottish malts provide a deep bready flavour and a full copper colour, pulled into balance by brisk hopping – perfect for the long winter.

Goose Island Summertime (4.7% abv.)
The colour of sunshine, with a light fruity aroma and a hint of fruity acidity, Goose Island Summertime is a Kölsch beer brewed in the traditional German fashion.

Goose Island County Brand Stout (13% abv.)
A liquid as dark and dense as a black hole with thick foam the colour of a bourbon barrel, the nose is an intense mix of charred oak, chocolate, vanilla, caramel and smoke.

Erdinger Oktoberfest (abv. TBC)
Slightly darker than the normal Erdinger Weissbier, Erdinger's Oktoberfest brings the annual Bravarian party to the UK.
It's the world's biggest 'fair' so dust off your lederhosen "O'zapft is!"

Erdinger Schneeweiss (5.6% abv.)
First brewed in 1997, this "snow-white" beer is darker and stronger than the than classic Erdinger Weißbier and is a welcome change during the cold winter months! Schneeweiss goes particularly well with hearty food.

Schneider Hopfenweisse (8.2% abv.)
'Meine Hopfenweisse' is a new, hoppy wheat beer style created in a creative collaboration with Brooklyn Brewery. An extreme wheat beer which shows just how far wheat beers can go!

Schneider Eisbock (12% abv.)
With powerful aromas and an intense flavour, Eisbock is perfect as a digestive after a good meal.

ORDERING INFORMATION

Seasonal beers are a great enhancement to the speciality beer offering of any establishment, delivering the tastes and experiences which compliment the seasons: light and crisp ales for a hot Summer day, the earthy flavours of Autumn, with robust and spicy Winter warmers.

In addition to the key seasonal beers listed overleaf, we are delighted to be able to offer a selection of additional seasonal beers throughout the year. If there is something in particular you are looking for please contact the James Clay Team on **01422 377 560** and we will be able to advise you on availability.

As you would expect with these specialist beers, production is generally significantly less than the brewery's main brands.

With this in mind, we ask our customers to order their stock of seasonal beers further in advance: this can mean an extra month in the case of the likes of Brooklyn Summer Beer or Schneider Eisebock, but can also mean a longer period between order and delivery for Erdinger Oktoberfest, for example.

Orders for our key speciality beers can still be taken after the end of the month indicated, but availability for these will then be strictly on a "first come, first served" basis.

To enquire further, please call us on **01422 377 560** or email **info@jamesclay.co.uk**
